Complete cure by Homeopathy

"Take these three medicines (Azithromycin, paracetamol and cetirizine), get CBC blodd test and an X-ray of your lungs." I was shocked with these words of a well-known MBBS from igatpuri. As we all know the current pandemic scenario seriousness, he might had asked to get the picture cleared. Actually I was having fever, cold, sore throat and a severe body pain and headache. I then consulted with Dr. YogeshGhongde regarding the diseased condition. He just asked to calm down. He treated me with his homeopathy medicines for the symptoms. Now I am all right and have tested negative for COVID-19.

I am Gurudatta Tiwari, working as GAT at Mahindra & Mahindra Igatpuri. Right from my childhood, I always preferred to take Homeopathy medicines, as I had side-effects history of drugs, steroids and antibiotics. Its regular practice for me to sneeze many times a day. Whenever I sneeze, my forehead, face everything becomes light and I fell free when the nasal track gets cleared. But, on Wednesday, 5th of August, I had sore throat and a little headache from morning. As on afternoon, pain started in my back and waist and by the evening, I had pain all over my body. Mostly all the joints were having pain. At 8 PM, I was having 99^0 fever.

I shared all my symptoms with Dr. Yogesh and asked for medicine. I couldn't sleep that night because of whole body pain, unease, burning eyes and humming sound in mind. Had 100^0 fever, 2 episodes of dysentery followed by cramping in legs and hand and many badly horrific dreams in night. The second day, I was advised to take swab test. Had white coating on tongue and feeling of restlessness. In afternoon, Dr. Yogesh asked to take 4 doses of next medicine. By evening, fever dropped, stomach was ok with good hunger. Still had headache at forehead and left side like being hammered out with heartbeats. Dr. Yogesh then prescribed a medicine and rest. This time I had superfast express sleep in night and wake up on third day with sneezing. Though,
